

MilfordMD Cosmetic Dermatology Surgery & Laser Center Offers “Spooktacular Halloween Savings” on Lip Fillers, Earlobe and Décolleté Rejuvenation and More through October

Share Article

MilfordMD Cosmetic Dermatology Surgery & Laser Center announces October’s “spooktacular” Halloween specials, including Restylane for lip filling or earlobe rejuvenation, Sculptra for décolleté rejuvenation, as well as discounts on treatments to address benign lesions and facial veins. The opportunity to save hundreds of dollars off on these procedures is available through October.

MILFORD, PA. (PRWEB) OCTOBER 02, 2018

MilfordMD Cosmetic Dermatology Surgery & Laser Center has announced its **October “spooktacular” Halloween specials**, including hundreds of dollars off Restylane for lips or earlobe rejuvenation, Sculptra for décolleté rejuvenation and facial vein and benign lesion removal. The October specials are available now and end Wednesday, October 31. “One of the specials we’re highlighting in October, ‘Fangtastic Lips,’ offers clients a savings of \$200, or almost 30% off 1cc of Restylane Silk to rejuvenate the lip vermilion,” says cosmetic surgeon Dr. Richard Buckley, medical director of MilfordMD Cosmetic Dermatology Surgery & Laser Center, in Milford, Penn. “It’s a great opportunity for someone who hasn’t tried this fantastic hyaluronic acid filler and those who want more lip volume to come in and improve their lips.”

Restylane Silk is the first hyaluronic acid filler approved by the FDA to augment the lips and smooth lines around the mouth. Adults with thin lips, those who notice their lips getting thinner, or want fuller lips are ideal candidates for the in-office procedure, he says. “This particular

Limited Fall Specials

MilfordMD is announcing October’s Spooktacular Halloween Specials, which include Fangtastic Lips, EARresistable Ears, and Spooktacular Sculptra specials with over \$750 in combined savings!

“Our Halloween-themed October

filler was designed specifically for making the lips look naturally plumper and more youthful,” Dr. Buckley says.

Dr. Buckley also uses a Restylane filler product to [rejuvenate earlobes](#). The “EARresistable Ears” October special at MilfordMD features a savings of \$200, or almost 30%, off 1cc Restylane ear rejuvenation treatment, which usually costs \$695. “Many women who have long worn heavier earrings find their earlobes have stretched, along with the holes in their ears. What many don’t know is we can repair that relatively easily using a filler to give the lobe volume around the hole. The result is an earlobe that not only looks more youthful but also provides a better foundation for earrings,” Dr. Buckley says.

The cosmetic practice’s “Spooktacular Sculptra” special is an opportunity for women who want their décolleté rejuvenated to save \$351, or 35%, off one vial of Sculptra, which normally costs \$1,000. [Sculptra Aesthetic](#), a poly-L-lactic acid filler, works on the chest, face, and buttocks by gradually stimulating collagen in treated areas, therefore smoothing surface lines and crepey skin. Research has shown that 80% of Sculptra clients were satisfied with their treatment results 25 months after their last injection, according to SculptraAesthetic.com. “The décolleté tends to be visible in clothes. The problem is that it’s also visible to sunlight and environmental factors that can make the chest look older than a woman feels,” Dr. Buckley says. “Using Sculptra to reverse some of what happens with age and sun exposure is a minimally invasive option that works over time and doesn’t require time off work or play.”

The last of October’s spooktacular Halloween specials at MilfordMD is 20% off aesthetic treatments to remove noncancerous moles, growths or skin tags on the face or body, or 20% off facial vein treatments on or around the nose and cheeks. “Often the small moles, skin tags or other skin imperfections bother people for years, and they might not realize that removing these benign growths is quite simple and doesn’t require downtime,” Dr. Buckley says. “The same goes for the small veins, called spider veins or ‘broken’ blood vessels, around the nose and cheeks that likely become more visible with age. We use the GentleYAG laser and other devices to quickly and effectively treat facial veins in patients of all skin colors.” People interested in the 20% off special may submit photos of the area they’d like treated on [MilfordMD’s Virtual Consultation](#) page to request a free quote.
