## Join Us and Discover the Latest Skinnovation in Radio-Frequency Treatments at MilfordMD on February 20th

### Share Article

For those who want to rejuvenate skin, tighten skin or reduce cellulite, Dr. Richard E. Buckley and Dr. Marina Buckley of MilfordMD Cosmetic Dermatology and Laser Center in Milford, Penn. are hosting a special event on February 20th to introduce their two newest radio-frequency (RF) treatments that offer spa-like comfort amazing results and no downtime.

#### MILFORD, PA. (PRWEB) FEBRUARY 17, 2020

MilfordMD Cosmetic Dermatology and Laser Center in Milford, Penn. is hosting [a free fun-filled event](#), open to the public, where Dr. Richard E. Buckley and Dr. Marina Buckley, two of the areas most experienced cosmetic physicians, will unveil their latest non-invasive skinnovation treatments for skin rejuvenation, acne scars, facial aging, skin tightening and cellulite reduction using two new devices: Lumenis NuEra Tight™ and Legend Pro™. Join Dr. Richard E. Buckley and Dr. Marina Buckley for this two-hour exclusive event on February 20th from 6:00 p.m. to 8:00 p.m.

Event attendees will enjoy a live demonstration of Lumenis NuEra Tight™, a non-invasive radio-frequency (RF) treatment that improves skin laxity and cellulite from head to toe. Attendees will also have the chance to win a free NuEra Tight™ treatment and receive exclusive event pricing unseen anywhere else.

President of Pocono Medical Care, Inc. and cosmetic physician Dr. Marina Buckley will be on hand to answer questions and discuss the benefits of NuEra Tight™ and Legend Pro™. "These new treatments couldn't come at a perfect time," says Dr. Marina Buckley. "Confidence boosting treatments like microneedling, body contouring and [cellulite smoothing](#) are in especially high demand. And it makes sense.

Join Drs. Richard and Marina Buckley on February 20th, starting at 6PM, as they reveal two new additions at MilfordMD that will offer an extensive list of radio-frequency rejuvenation treatments.

MilfordMD is extremely excited to now offer an extensive list of

According to the most recent survey by the American Society for Dermatologic Surgery, for the past seven years the top reasons people consider cosmetic treatments are because they want to feel more confident, appear more attractive, and look younger. These treatments do an excellent job of addressing those exact concerns."

Legend Pro™ RF microneedling addresses both internal and external signs of aging. On the surface, it rejuvenates and resurfaces the skin. Underneath the skin it stimulates the body's natural collagen and elastin production, both of which are protein fibers that support the skin and start to diminish around age 20. Collagen and elastin help smooth out fine lines and wrinkles, irregular skin tone and texture and can improve the appearance of acne scars and stretch marks. "What sets the Legend Pro™ apart is the ability to rejuvenate the face and body using a single platform," says Dr. Marina Buckley. "This device combines unique Tripollar® radiofrequency (RF) energy with VoluDerm™ RF microneedling to trigger collagen stimulation and regeneration of new skin. It is this dual approach that results in superficial and deep revitalization of the skin."

NuEra Tight™ is a non-invasive RF treatment that targets superficial skin and deep tissues to improve cellulite and skin laxity from head to toe. It can also aid in the reduction of stubborn small fat deposits. "For the face it is pure skin tightening. On the body, it is most commonly used on the abdomen, love handles, thighs, upper arms, bra rolls and above the knees where it tightens skin and reduces cellulite by triggering collagen growth. Clients love it because it is a comfortable treatment often likened to a pleasurable hot stone massage. Plus, it can be combined with treatments like CoolSculpting for additional fat reduction," Dr. Marina Buckley says.

"We are very excited to offer these new treatments to patients due to the extensive list of concerns they can address and benefits they can provide," says Dr. Marina Buckley. Legend Pro™ and NuEra Tight™ offer unparalleled benefits when it comes to skin firming, lifting, rejuvenating; facial skin thickening; fine line reduction; facial skin contouring; [acne scar improvement](#); skin resurfacing and texture renewal; double chin treatment; body contouring; cellulite reduction; and stretch marks and scar improvement.

"When it comes to RF microneedling, body contouring, and skin tightening, MilfordMD has a lot of options available to patients," Dr. Marina Buckley says. "We've found these events provide a great opportunity to meet people, provide education, and answer questions. It helps people get to know the MilfordMD team and feel comfortable in our practice as well as introduces them to new state-of-the-art technologies that can best address their aesthetic concerns."

For over 30 years, board-certified Drs. Richard E. Buckley and Marina Buckley have dedicated their AAAHC accredited practice to helping patients achieve their aesthetic goals. MilfordMD specializes in face and body surgical and non-surgical rejuvenation and sculpting.

"Together, Marina and I have helped over 30,000 patients achieve their health and cosmetic goals with a combination of surgical and non-invasive treatments. We have the experience, tools, and treatments to get the results patients desire. This "Introducing a NuEra of Skin Rejuvenation" event is the ideal opportunity to get the word out about two great new options to address popular concerns we find among many of our patients," says Dr. Reichard E. Buckley.
