

# MilfordMD Announces Money-Saving Specials for October 2017 Including Free Consults, Specially-Priced Décolletage Rejuvenation Combo and Lip Augmentation with Botox

## Share Article

MilfordMD has announced three money-saving specials for October 2017. People booking with the Milford, Penn., cosmetic dermatology, surgery and laser center in October can get free consults and price breaks on combination procedures to rejuvenate the décolletage and lips.

### MILFORD, PA (PRWEB) OCTOBER 03, 2017

MilfordMD Cosmetic Dermatology Surgery & Laser Center, in Milford, Penn., has announced **three money-saving cosmetic procedure specials** for October. The first special would appeal to anyone wanting to make an aesthetic change: Book a cosmetic consult with Marina Buckley, MD or Richard Buckley, MD during October (\$150 value), and it's free. "The cosmetic consult is an opportunity for people to talk about their cosmetic concerns, dislikes, desires and dreams," says cosmetic surgeon Dr. Richard Buckley, medical director of MilfordMD Cosmetic Dermatology Surgery & Laser Center, in Milford, Penn. "It's one of the most important meetings between a cosmetic surgeon and patient. I get to know my patients during the consult and better understand where they're coming from. We talk about nonsurgical, minimally invasive and surgical solutions that can help them achieve their aesthetic goals. I answer all their questions, and, together, we create a plan of action."

Another October special offer at MilfordMD is a \$240 savings on a combination that can reverse sun damage and rejuvenate skin on the décolletage—an area known to age quickly with sun exposure. "Cosmetic surgeons are finding that combination treatments, using

MilfordMD just announced offers for the chance to save hundreds of dollars on cosmetic consultations and popular combination treatments to rejuvenate aging décolletages and lips throughout October.

noninvasive and minimally invasive devices and procedures often offer better results than single treatments,” Dr. Buckley says. “For example, with the October special, we’re using a combination approach to collectively address the cosmetic concerns that many have with the thin, easily-aged skin of the décolletage.” The combination, according to Dr. Buckley, uses two different noninvasive technologies: one to smooth skin wrinkling, or crepey skin; another, to help erase brown spots and other pigment changes that come with age and sun exposure.

MilfordMD’s go-to combination for rejuvenating the décolletage and the one featured as the October special is Ultherapy and thulium laser treatment. **Ultherapy**, the skin tightening device uses ultrasound energy to noninvasively heat the deep tissue, fueling collagen creation, smoothing crepey skin and gently tightening the décolletage to create a smoother, less wrinkled, more youthful background for jewelry and plunging necklines. Thulium décolletage treatment is with a Fraxel laser. It noninvasively addresses skin discoloration on the décolletage, including age, or sun, spots, which can make the chest area look mottled and older. Treatment with Fraxel technology improves skin tone and texture, often offering results within days, he says.

Yet another October offer: The Perfect Pout Special. People who have lip augmentations with 1 cc of filler or more at MilfordMD through October can opt for a free **Botox** lip treatment, which is a \$149 value. “With age, sun exposure and a lifetime of expressions, including smiling, frowning and puckering, lips can lose their youthful pout. They become thinner, and lines form around them that make applying lipstick a challenge,” Dr. Buckley says. “This combination addresses both issues. The hyaluronic acid filler subtly plumps the lips, while Botox relaxes the muscles and smooths the surrounding lines around the mouth.” Not many associate Botox with rejuvenation of the lips, but Dr. Buckley says the neuromodulator, when used correctly and conservatively, reduces the dynamic wrinkles, while allowing the lips to move freely.
