MilfordMD Cosmetic Dermatology Surgery & Laser Center, Milford, Penn., has announced its Friends & Family Special through July 31, 2016: Bring or send a family member, friend or co-worker who is new to the Milford, Penn.-based cosmetic surgery practice and who receives at least one syringe of facial filler and both persons will each receive a complimentary HydraFacial MD treatment.

MILFORD, PA (PRWEB) JUNE 21, 2016

MilfordMD Cosmetic Dermatology Surgery & Laser Center, Milford, Penn., has announced its [Friends & Family Special through July 31, 2016](#): Bring or send a family member, friend or co-worker who is new to the Milford, Penn.-based cosmetic surgery practice and who receives at least one syringe of facial filler and both persons will each receive a complimentary HydraFacial MD treatment.

Cosmetic surgeon and MilfordMD Medical Director, Dr. Richard Buckley, says facial filler treatments are an ideal summer pick-me-up. "There's an ever-growing list of facial fillers—each targeting facial concerns in slightly different ways," Dr. Buckley says. "With the Friends & Family Special at MilfordMD, people can experience the power of a HydraFacial MD treatment and learn how it complements certain facial rejuvenation options, such as facial fillers."

Among [today's most popular filler options](#): FDA-approved hyaluronic acid (HA) fillers, Juvéderm Ultra and Juvéderm Ultra Plus, which have been shown to last up to a year or more and are ideal for correction of moderate to severe facial wrinkles and folds. Restylane Silk Belotero Balance are FDA-approved fillers Dr. Buckley uses to soften smile lines, vertical lip lines or lines around the corners of the mouth, as well as

MilfordMD's Friends & Family Special: Refer a friend, family or co-worker, new to our office and who receives at least 1 syringe of filler and each person will receive a free HydraFacial MD treatment

With the Friends & Family Special at MilfordMD, people can experience the

crow's feet around the eyes. These delicate fillers are designed to mold seamlessly into patient's distinct facial contours. The result is a natural, more youthful look, that takes away some of the harshness that can occur with aging.

The injectable Radiesse is a calcium hydroxylapatite (CaHA) filler. CaHA occurs naturally in the body, making up bone and teeth. It stimulates the body's own collagen making over time and can last a year or more. In addition to being a popular option for correcting and smoothing moderate to severe facial wrinkles and folds, including nasolabial folds, Radiesse is the first and only filler that is FDA approved to correct volume loss on the backs of the hands. Restylane and Perlane (now called Restylane Lyft) are a family of HA fillers for smoothing moderate to severe facial wrinkles and folds. Restylane, one of the world's most popular fillers, is also approved for plumping the lips. Sculptra, an injectable poly-L-lactic acid, offers subtle, gradual replacement of lost collagen over a series of an average of three treatments.

"The key with all fillers is to have an injector physician who understands the nuances among them, facial anatomy, and aging, and can guide patients to the optimal filler to meet their individual needs." Dr. Buckley adds. To enhance and maintain results Dr. Buckley recommends having a facial rejuvenation protocol with [HydraFacial MD](#).

A free HydraFacial MD treatment, which Marie Claire magazine named as one of five "it" beauty industry innovations for 2015, adds to the value of the Friends & Family Special through July 31, 2016.

"HydraFacial MD is ideal for women and men who are on-the-go and looking for a no-downtime treatment option that visibly improves the look of the skin's surface in the short and long terms," Dr. Buckley says. "The HydraFacial MD treatment is a \$175 value, making it a sweet summer deal."
