

# Cupid Has Come to MilfordMD Offering Amazing Specials in February on Popular Lip Fillers, Body Sculpting, Skin Tightening, Facial Fillers and Skin Rejuvenating Treatments

## Share Article

MilfordMD is offering several specials in February including Restylane, Radiesse, HydraFacial MD, CoolSculpting and more. Get up to 50% off some of the most popular cosmetic treatments.

**MILFORD, PA. (PRWEB) FEBRUARY 14, 2020**

“The American Society for Dermatologic Surgery survey found that consumers were most bothered by excess weight, skin texture and discoloration, and lines and wrinkles. And the treatments they are most interested in are body sculpting, skin tightening and injectables. MilfordMD is offering some great specials in February specifically to address the areas our patients are most concerned about,” says Dr. Richard E. Buckley, Medical Director and cosmetic surgeon at MilfordMD Cosmetic Dermatology Surgery & Laser Center, in Milford, Penn. “One of the **cosmetic treatment specials** we’re highlighting in February is “WOW” Factor Lip Special with Restylane to get your lips pucker-ready for Valentine’s Day and 2020. It’s a great opportunity for someone who hasn’t tried hyaluronic acid fillers in their lips and wants plumper, fuller lips.” MilfordMD is offering \$200 off a syringe of Restylane for lip augmentation. Restylane is an FDA approved hyaluronic acid filler used to plump the lips for instant volumizing and hydrating effects. Restylane is among RealSelf.com’s 2020 Most Worth It treatments with a 97% Worth It rating.

For anyone wanting to make a cosmetic change, there’s no better time than now to book. Cosmetic consultations (a \$150 value) with Marina Buckley, MD or Richard E. Buckley, MD are complimentary in February.

Don’t miss out on MilfordMD’s sweetheart deals in February on some of the most popular cosmetic treatments such as CoolSculpting, lip fillers and skin rejuvenation.

“Now is the time to take advantage of some of

“The cosmetic consultation is an opportunity for individuals to discuss their concerns, dislikes and aesthetic goals with a board-certified cosmetic medical doctor. It is an extremely important part of the process for the cosmetic surgeon and patient to get to know one another and create a customized plan to achieve the person’s goals,” says Dr. Buckley.

Save 28% on skin rejuvenation using bio-stimulating Radiesse injectable filler. Through artful placement of 2 syringes of Radiesse, Dr. Richard E. Buckley can smooth away fine lines and restore youthful looking skin on the face, neck, chest or hands. “There’s a fairly new use for **Radiesse as a bio-stimulating agent**,” says Dr. Buckley. “By placing Radiesse very superficially under the skin in a very thin, fine, smooth layer, one can stimulate a process where the body is making more collagen III as opposed to collagen I, which is a more desirable collagen. This is very useful for fine lines and very fine wrinkles on the neck and face. Not only does it provide immediate results, but it continues to work by stimulating natural collagen, which helps the results last a year or much more.”

Gift and get in on February’s HydraFacial MD special. Gift one **HydraFacial MD** and get one at 50% off. “HydraFacial MD super cleans the skin, ridding it of what makes skin look dingy and older while infusing it with vital nutrients including peptides, hyaluronic acid and antioxidants. It achieves what microdermabrasion and some laser procedures do with no downtime,” says Dr. Buckley. “Clients love it because it’s a gentle and effective rejuvenating option for all ages. Many clients get it before a big event to look their best and then keep coming back because of how glowingly healthy it keeps the skin.”

Shrink pores, stimulate collagen and noticeably improve fine lines and wrinkles, skin laxity and acne scars with **DermaTyte**. In February, get 45% off DermaTyte non-invasive laser tightening combination treatment, developed by Dr. Richard E. Buckley. “DermaTyte is ideal for people who want a non-invasive skin tightening treatment without downtime. It’s a laser technique that improves skin tightening, texture and tone with each treatment. DermaTyte comfortably tightens skin virtually anywhere on the body and addresses fine wrinkles,” states Dr. Buckley.

Celebrate love, not love handles, in February with CoolSculpting. MilfordMD is offering buy one CoolSculpting cycle, get \$150 off a second cycle. FDA-approved to treat the abdomen, flanks (aka love handles), inner and outer thighs, bra bulge, back fat, under the butt and upper arms, CoolSculpting is a state-of-the-art non-surgical procedure that uses cold temperatures to eliminate fat. “**CoolSculpting** reduces the temperature of the fatty tissue to where those cells die and are eliminated during the weeks after treatment. Once those fat cells are gone, they are gone for good. The best part is we can reduce unwanted fat without making any incisions or doing surgery,” says Dr. Marina Buckley.
